

# Hose Crimper

## ColorStorm™ Professional Rubber Hose Crimper

The ColorStorm™ Hose Crimper is made to be used specifically with the Dramm ColorStorm Professional Rubber Hose. Utilizing Dramm's nickel plated brass hose fittings and ferrules\* (see below), the Hose Crimper produces a similar fit and finish as our larger hose press and our factory assembled hoses.

Because the Hose Crimper uses Dramm's high quality ferrules, there is no need for ring bands or gear clamps.

The ColorStorm Hose Crimper comes standard with either 5/8" or 3/4" jaws that are easily interchangeable.

### Specifications

DP-FRAME: Mountable frame  
 DP-J625: Jaws fit 5/8" ColorStorm™ Hose  
 Hardened steel construction

DP-J750: Jaws fit 3/4" ColorStorm™ Hose
